Catalog of British Motorcycles Nov 20 2021 84 pages, 83 black & white illustrations, size 8.25 x 11 inches. Published in the USA under the same title in 1951 by Floyd Clymer, the original publication was a pocket sized landscape format book and it is often criticized as difficult to read due to its small print size. Consequently, this edition was re-formatted into a larger and more conventional portrait size which has increased

the text size by almost 40%. This publication provides the reader with an insight into the country, and the manufacturers, that were ultimately destined to succumb to the dominance of the Japanese motorcycle industry. A total of 33 different British motorcycle manufacturers and their various models are included and sadly, less than a handful of those 33 manufacturers survive today. A 'must have' resource for any motorcycle enthusiast and an invaluable reference for anyone interested in British 'iron'. Many of the motorcycles featured within are highly collectible today and the predominance of these early manufacturers no longer exist. This truly historical documentation of the glory years of British motorcycle manufacturing has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. We are pleased to be able to offer this reproduction as a service to all motorcycle enthusiasts worldwide.

Classic British Motorcycles Oct 08 2020 In the modern era, mass-produced motorcycles tend to be of Japanese or Italian origin with the 'big four' Asian manufacturers dominating the market. However, it wasn't always the case. Until the 1950s, even into the 60s, British makers such as Scott, Rudge, BSA, Norton and

Vincent ruled the roost. These legendary companies sold their bikes around the world, winning racing championships and setting speed records as they went. They, and many smaller British firms like them, are motorcycling's founding companies. This is the story of those pioneering firms, whose engineers - many self-taught - were fired by racing ambition, commercial rivalry, patriotic duty, and above all, a passion for innovation. Superbly illustrated with over 150 color pictures many previously unpublished *Classic British Motorcycles* is a captivating and highly informative account of the men, machines, race meetings and world events that shaped the development of the motorcycle from its bicycle origins.
