Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

The GIS Weasel User's Manual Mar 24 2022 The GIS Weasel was designed to aid in the preparation of spatial information for input to lumped and distributed parameter hydrologic or other environmental models. The GIS Weasel provides geographic information system (GIS) tools to help create maps of geographic features relevant to a user's model and to generate parameters from those maps. The operation of the GIS Weasel does not require the user to be a GIS expert, only that the user have an understanding of the spatial information requirements of the environmental simulation model being used. The GIS Weasel software system uses a GIS-based graphical user interface (GUI), the C programming language, and external scripting languages. The software will run on any computing platform where ArcInfo Workstation (version 8.0.2 or later) and the GRID extension are accessible. The user controls the processing of the GIS Weasel by interacting with menus, maps, and tables. The purpose of this document is to describe the operation of the software. This document is not intended to describe the usage of this software in support of any particular environmental simulation model. Such guides are published separately.

Maine Jury Instruction Manual 2021-2022 Edition Mar 31 2020
Annually updated and revised by Hon. Donald G. Alexander of the Maine Supreme Judicial Court, Maine Jury Instruction Manual includes a wide array of civil and criminal jury instructions accompanied by commentary and discussion of practice points for closing arguments. New and revised instructions and commentary offer expert guidance on convening the jury panel, jury selection and voir dire, and return of the verdict, as well as practical guidance on how to present information to a jury in layman's terms to ensure effective communication with jury panels. Maine Jury Instruction Manual also provides extensive cross-references and online hyperlinks to the pattern criminal jury instructions for the District Courts of the First Circuit, with a cross-reference table and cross-references in related individual jury instructions. The subject matter index, table of cases, and table of statutes are also annually updated to reflect expanded and revised jury instruction coverage. The sample jury instructions will help legal professionals to avoid costly errors and to prepare for trial more quickly. The instructions lend themselves to ready customization to the facts of the case and expedite preparation for court. The vast array of forms in Maine Jury Instructions will save hours of expensive and frustrating research and replication.

Truck Nuts Feb 08 2021 Truck Nuts! Truck Nuts! Truck Nuts! We're dedicated to helping find the best truck for you: So, truck nuts – your truck is your career, your office, your passion, your attitude. What is the best truck for you? Kent "Mr. Truck" Sundling from MrTruck.com and Andre Smirnov from The Fast Lane Trucks will explore that question and more in their book, Truck Nuts. Learn about: • Small trucks and the best small truck • Big trucks • Diesel trucks • Family trucks and vans • Pickup trucks and the best pickup truck All Trucks All The Time! Truck Nuts, the debut book by Kent "Mr. Truck" Sundling and Andre Smirnov, takes on the challenge of breaking down

all the ins and outs of trucks: • How to match your truck to your trailer • Top 3 MPG trucks • Used truck judging • Gas or diesel engine? • Understanding truck and trailer tires • Truck safety • Going off the beaten path • The future of pickup trucks • Oil change myths We are nuts about trucks and we want to take you on a journey through "Truck Nuts", the book. Please join us.

The New Economics Aug 24 2019 In 1517, Martin Luther nailed his 95 theses to the wall of Wittenberg church. He argued that the Church's internally consistent but absurd doctrines had pickled into a dogmatic structure of untruth. It was time for a Reformation. Half a millennium later, Steve Keen argues that economics needs its own Reformation. In Debunking Economics, he eviscerated an intellectual church - neoclassical economics - that systematically ignores its own empirical untruths and logical fallacies, and yet is still mysteriously worshipped by its scholarly high priests. In this book, he presents his Reformation: a New Economics, which tackles serious issues that today's economic priesthood ignores, such as money, energy and ecological sustainability. It gives us hope that we can save our economies from collapse and the planet from ecological catastrophe. Performing this task with his usual panache and wit, Steve Keen's new book is unmissable to anyone who has noticed that the economics Emperor is naked and would like him to put on some clothes.

The Practicing Stoic Jan 10 2021 The great insights of the Sotics are spread over a wide range of ancient sources. This book brings them all together for the first time. It systematically presents what the various Stoic philosophers said on every important topic, accompanied by an eloquent commentary that is clear and concise. The result is a set of philosophy lessons for everyone - the most valuable wisdom of ages past made available for our times, and for all time.

The Feminine Toolkit May 14 2021 The Feminine ToolKit provides a sassy masterpiece of brevity and wit, making it a fast and easy read. This little book is brimming with high-value tips, tool recommendations, and how-tos.

Soldiers and Gentlemen Nov 27 2019 In Soldiers and Gentlemen, Westerman explores the stories of the vitally important, yet often forgotten, Australian commanding officers.

Amber 2021 Jun 14 2021 Amber is the collective name for a suite of programs that allow users to carry out molecular dynamics simulations, particularly on biomolecules. None of the individual programs carries this name, but the various parts work reasonably well together, and provide a powerful framework for many common calculations. The term Amber is also used to refer to the empirical force fields that are implemented here. It should be recognized, however, that the code and force field are separate: several other computer packages have implemented the Amber force fields, and other force fields can be implemented with the Amber programs. Further, the force fields are in the public domain, whereas the codes are distributed under a license agreement. The Amber software suite is divided into two parts: AmberTools21, a collection of freely available

programs mostly under the GPL license, and Amber20, which is centered around the pmemd simulation program, and which continues to be licensed as before, under a more restrictive license. Amber20 represents a significant change from the most recent previous version, Amber18. (We have moved to numbering Amber releases by the last two digits of the calendar year, so there are no odd-numbered

versions.) Please see <https://ambermd.org> for an overview of the most important changes. AmberTools is a set of programs for biomolecular simulation and analysis. They are designed to work well with each other, and with the “regular” Amber suite of programs. You can perform many simulation tasks with AmberTools, and you can do more extensive simulations with the combination of AmberTools and Amber itself. Most components of AmberTools are released under the GNU

General Public License (GPL). A few components are in the public domain or have other open-source licenses. See the README file for more information.
