Hersheypark Sep 26 2019 A well-known destination for family fun and amusement, Hersheypark has entertained and engaged visitors for more than 100 years. The park was an important part of Milton S. Hershey's plans for his new model industrial town, built for the workers of the Hershey Chocolate factory. In 1903, even before the factory was completed, he set aside land to be used as a park for picnics and family outings. While originally established as a community park, it soon developed into an amusement park as thousands of people flocked to Hershey each year to visit the chocolate factory and model town. This book portrays the origin of Hershey Park, its development as a trolley park, and its successful transition to Hersheypark, a themed amusement park, at a time when many traditional parks faltered and failed. Through period photographs and engaging narrative, Hersheypark explores the growth and development of the park; the vision of its founder, Milton S. Hershey; its successes and challenges; and how the park endured and transformed itself to become one of the East Coast's leading entertainment destinations.

Grounds for Play Mar 01 2020 The nautanki performances of northern India entertain their audiences with often ribald and profane stories. Rooted in the peasant society of pre-modern India, this theater vibrates with lively dancing, pulsating drumbeats, and full-throated singing. In *Grounds for Play*, Kathryn Hansen draws on field research to describe the different elements of nautanki performance: music, dance, poetry, popular story lines, and written texts. She traces the social history of the form and explores the play of meanings within nautanki narratives, focusing on the ways important social issues such as political authority, community identity, and gender differences are represented in these narratives. Unlike other styles of Indian theater, the nautanki does not draw on the pan-Indian religious epics such as the Ramayana or the Mahabharata for its subjects. Indeed, their storylines tend to center on the vicissitudes of stranded heroines in the throes of melodramatic romance. Whereas nautanki performers were once much in demand, live performances now are rare and nautanki increasingly reaches its audiences through electronic media—records, cassettes, films, television. In spite of this change, the theater form still functions as an effective conduit in the cultural flow that connects urban centers and the hinterland in an ongoing process of exchange.

Voice and Vision: A Creative Approach to Narrative Film and DV Production Jul 25 2019 Voice & Vision is a comprehensive manual for the independent filmmakers and film students who want a solid grounding in the tools,

techniques, and processes of narrative film in order to achieve their artistic vision. This book includes essential and detailed information on relevant film and digital video tools, a thorough overview of the filmmaking stages, and the aesthetic considerations for telling a visual story. The ultimate goal of this book is to help you develop your creative voice while acquiring the solid practical skills and confidence to use it. Unlike many books that privilege raw technical information or the line-producing aspects of production, *Voice & Vision* places creativity, visual expression, and cinematic ideas front and center. After all, every practical decision a filmmaker makes, like choosing a location, an actor, a film stock, a focal length, a lighting set-up, an edit point, or a sound effect is also an expressive one and should serve the filmmaker's vision. Every decision, from the largest conceptual choices to the smallest practical solutions, has a profound impact on what appears on the screen and how it moves an audience. "In Practice" sidebars throughout *Voice & Vision* connect conceptual, aesthetic and technical issues to their application in the real world. Some provide a brief analysis of a scene or technique from easily rentable films which illustrate how a specific technology or process is used to support a conceptual, narrative, or aesthetic choice. Others recount common production challenges encountered on real student and professional shoots which will inspire you to be innovative and resourceful when you are solving your own filmmaking challenges.

Harun Farocki Aug 30 2022 Filmmaker, film essayist, installation artist, writer: the Berlin artist Harun Farocki has devoted his life to the power of images. Over the thirty-plus years of his career, Farocki has explored not the images of life but rather the life of images that surrounds us in newspapers, cinema, books, television, and advertising. Harun Farocki examines, from different critical perspectives, his vast oeuvre, which includes three feature films, critical media pieces, children's television features, "learning films" in the tradition of Brecht, and installation pieces. Interviews, a selection of Farocki's own writings, and an annotated filmography complete a valuable biography of this pioneering artist and his legendary career.

Bombay Hustle May 27 2022 From starry-eyed fans with dreams of fame to cotton entrepreneurs turned movie moguls, the Bombay film industry has historically energized a range of practices and practitioners, playing a crucial and compelling role in the life of modern India. *Bombay Hustle* presents an ambitious history of Indian cinema as a history of material practice, bringing new insights to studies of media, modernity, and the late colonial city. Drawing on original archival research and an innovative transdisciplinary approach, Debashree Mukherjee offers a panoramic portrait of the consolidation of the Bombay film industry during the talkie transition of the 1920s–1940s. In the decades leading up to independence in 1947, Bombay became synonymous with marketplace thrills, industrial strikes, and modernist experimentation. Its burgeoning film industry embodied Bombay's spirit of "hustle," gathering together and spewing out the many different energies and emotions that characterized the city. *Bombay Hustle* examines diverse sites of film production—finance, pre-production paperwork, casting, screenwriting, acting, stunts—to show how speculative excitement jostled against desires for scientific management in an industry premised on the struggle between contingency and control. Mukherjee develops the concept of a "cine-ecology" in order to examine the bodies, technologies, and environments that collectively shaped the production and circulation of cinematic meaning in this time. The book thus brings into view a range of marginalized film workers, their labor and experiences; forgotten film studios, their technical practices and aesthetic visions; and overlooked connections among media practices, geographical particularities, and historical exigencies.
